REQUEST FOR CORRECTED NONPROVISIONAL
APPLICATION FILING RECEIPT

Commissioner for Patents
Office of Initial Patent Examination
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Attached is a copy of the "Updated" Filing Receipt mailed October 26, 2004 in the above captioned application, for which issuance of a corrected filing receipt is requested. This Updated Filing Receipt contains incorrect domestic priority data. This error is believed to be an error on part of the Patent and Trademark Office. The relevant facts regarding the above are as follows:

REQUEST FOR CORRECTED FILING RECEIPT

Attorney Docket No.: RG2-3138-U

U.S. SERIAL NO. 10/814,038

1. A utility patent application and drawings were filed on April 1, 2004. The inventors identified subject matter with respect to which they seek patent rights, but failed to include claims in the application as filed.

2. A Notice of Incomplete Nonprovisional Application was mailed to the Applicants on June 16, 2004, a copy of which is attached. That Notice accorded the filing date of April 1, 2004 for U.S. application serial no. 10/814,038.

3. A Response and Preliminary Amendment was filed on August 13, 2004, requesting an initial original set of claims in application be entered and that a filing date be established for the application. A "Combined Declaration and Power of Attorney" executed by the Applicants was also submitted to the Patent Office on August 13, 2004.

4. A new Filing Receipt mailed September 8, 2004 was received by the Applicants according the filing date of August 13, 2004 for the same case, U.S. application serial no. 10/814,038. This Filing Receipt also indicated domestic priority data, claiming benefit of provisional application No. 60/466,771 filed May 1, 2003. A copy of the Filing Receipt mailed September 8, 2004 is attached.

5. The original filing date requested was not awarded, due to missing claims. Thus, this application is not entitled to the originally claimed priority date. Therefore, no domestic priority data is claimed for U.S. application serial no. 10/814,038.

An "Updated" Filing Receipt is therefore required requesting the priority data be appropriately corrected in the Patent Office's data base.

If the Patent Office should have any questions on this matter, please contact the undersigned attorney at the address and telephone number given below.

The required corrections are not due to an error on the part of the Applicant and no fee is believed due.

Applicant, however, authorizes the Commissioner to deduct or credit overpayment of any fee due for this paper or during the pending of this application from deposit account number 07-1613.

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
